

PURE CLEAN Series

DESCRIPTION

- **LubeRite Pure Clean Series** is a premium solvent cleaner particularly designed as a more environmentally friendly and less harmful replacement for pure Halogenated and Chlorinated Cleaners like Methylene Chloride, Trichloroethylene, and Perchloroethylene, for manual metal cleaning.

APPLICATION

- Specially formulated for cleaning or degreasing operations on any type of metal by wiping, spraying, or dipping.

- Very good and strong degreasing property.
- Multi metal application means less inventory of different cleaners.
- Will not affect most industrial plastics, especially polyethylene.
- Non-staining so it will not affect the color or appearance of materials.
- Low odor ensures good worker comfort.
- Does not contain benzene or aromatic solvents, so it is safe to use and is ozone friendly.

FEATURES AND BENEFITS

- Evaporates completely without leaving any residue.

PACKAGING

- 200 liters drum, 20 liters pail

SPECIFICATIONS
