

Description

A premium quality Lithium-calcium lubricating grease. PROCALITH L EP2 has extremely low oil separation properties and therefore is stable when subjected to continuous pressures.

Outstanding Features

- Excellent anti-wear properties providing increased component life.
- Excellent pumpability.
- Excellent Corrosion resistance.
- Excellent water resistance.
- Very low oil separation.

Directions of Use

PROCALITH L EP2 can be applied by hand, or by brush or via central lubricating system designed for and capable of pumping an NLGI No. 2 grease; consult a qualified centralised lubrication systems engineer before installation.

Technical Data

Typical Results

Appearance	-	Smooth grease
Colour	-	Brown
NLGI Classification	-	2
Thickener	-	Calcium-lithium soap
Dropping point (ASTM D2265)°C	-	150 min.
Dynamic corrosion resistance (EMCOR)	-	0 : 0
Timken OK load (IP 326) lbs	-	45
Operating temperature range	-	-30°C to +120°C
