

Description

Syntech Silicone Spray is a high viscosity, pearlescent, smooth, tacky, and waterproof silicone fluid in an aerosol package for use as a releasing agent for molding processes. It is resistant to many reactive chemicals that may be encountered in “clean” industries such as food and beverage, pharmaceuticals and personal care plants. Syntech Silicone Spray is ideal for use as a general lubricant.

Applications

Widely used in food and poultry plants operating under the Federal Meat and Poultry Products Inspection Program’s Food Safety and Inspection Service (FSIS)

Syntech Silicone Spray is a silicone fluid for use in the food, beverage, pharmaceutical, personal care products, printing, electric, electronic and other industries where its retentive, water repellent and non-gumming characteristics make it a universal-type lubricant.

Features and Benefits

- Chemically Inert - Will not affect rubber, plastic or metal
- Chemically Resistant - Unaffected by mild acids, alkalis, alcohol and glycol
- Waterproof - Ideal for wet conditions and water displacing

This product contains no genetically modified ingredients and does not contain any nut oil or derivatives.
